

Alum Creek WMA Winter Meeting

When? Saturday, March 26, 2022 at 3 p.m.

Where? From the comfort and safety of your own home

How? [Register to attend the meeting.](#)

Agenda:

- Welcome — *Roxanne Hernandez, ACWMA President*
- Agency Updates — *Cari Croft, LPHCP & Robert Trudeau, TPWD*
- Watching Wood-Warblers (and other spring migrants) From Treetop to Forest Floor — *Craig Hensley, TPWD Texas Nature Trackers Biologist*
- Door Prize Drawings

As we welcome the arrival of spring, from butterflies and bees to a host of wildflowers, millions of migratory birds are taking to the skies from the tropics, winging their way to breeding grounds in Texas and throughout the rest of North America. Texas Nature Trackers Biologist Craig Hensley will guide you through the plethora of feathered flyers, with emphasis on warblers, but also including flycatchers, thrushes, and more. You will learn identification tips, habitat needs and the challenges they are facing today.
